Community Policing Forum

GENERAL

Message from Chairman – John Baisley

Hi all those in Sector 2

Welcome to our first newsletter of the new year.

The committee of Sector 2 and the various RA chairpersons wish you a safe and peaceful 2017.

At the time of writing the various chairpersons of the resident associations had already met to plan for 2017. We will meet on a quarterly basis and also plan as such.

You have a wonderful bunch of folk that really care about the safety of their residents and I urge you to please make contact with them and get involved in your neighbourhood.

Only together can we make a difference in the fight against crime.

I will go into more detail in the next newsletter about what we wish to tackle but one of the biggest things we wish to do is bring you more regular communication about what is going on in the sector, particularly with regards crime. Improved communication will help us win this war. Most of the communication will come from your RA chairperson so please ensure you are getting their newsletter or Whatsapp messages.

We will also continue to use the Sector 2, Randparkridge and Weltevredenpark Face Book pages.

For now, I wish to highlight two items.

Missing persons.

You would be very surprised at the number of persons that go missing daily. Fortunately, we are in a position to send out details of a missing person very quickly and nationally in a very short space of time.

The amount of persons that are on our emergency groups are vast and involve all sorts of emergency services.

Should you become aware of a missing person, please report it immediately to the police. Provide as much detail as possible. Please see a comprehensive list of what is required on our website.

Once we have case number we can start distributing.

There is NO WAITING period to report a person missing and the sooner it is done the better.

Please involve your RA chair in need.

Security Companies

Then, I see there is a regular request from a resident to a group asking which security company is best to use?

I think the person comes away from the request more confused than ever.

Whilst the CPF and the Sector committee cannot in any way favour any security company, I would wish to request that you make contact with your association and see who they recommend.

Most of the associations in Sector 2 have a preferred service provider and in many cases have dedicated cars in the area.

I firmly believe in visible policing and having a dedicated car means patrolling and also you can hold the company more accountable for crime prevention.

Armed RESPONSE no longer works. You just have to watch clips on You Tube as to how quick a burglary occurs.

Two minutes and less is the norm these days. Frightening. Electric gates, high walls, electric fences and alarms are no deterrent it would seem.

Only by actively patrolling and having response times that are seconds will chase the criminal elsewhere.

There is no compromise on safety and no second chance.

Stay safe

John/Sector Chairman
